PREFACE

Swami Vivekananda occupies a distinguished place among the greatest spiritual thinkers, philosophers, and nation-builders of modern India. His teachings, rooted in the principles of universal brotherhood, human values, self-confidence, and service to humanity, continue to inspire people across the globe. His vision extended beyond the limits of religion and nationality and emphasized the harmonious development of individuals and societies through character-building, education, moral values, and spiritual awakening. His timeless message remains relevant in the contemporary world facing social, cultural, and ethical challenges.

The present book, *Global Vision of Swami Vivekananda*, has been specially prepared in **Question–Answer format** to provide a simple, systematic, and student-friendly understanding of Vivekananda’s life, philosophy, and global outlook. The book aims to make his ideas more accessible to students, teachers, researchers, and competitive examination aspirants by presenting important themes in an easy and comprehensible manner.

The book explores various dimensions of Swami Vivekananda’s personality and thought, including his role as a philosopher, patriot, humanist, religious leader, and inspiration to youth. It also discusses his views on education, humanism, national integration, international harmony, Vedantic philosophy, and universal welfare.

It is hoped that this work will encourage readers to understand and appreciate the enduring relevance of Vivekananda’s message and inspire further reflection on his vision for humanity.
